

## **Boiler Maker PERTH WORKSHOP**

**Ref: HR553**

Gulf Group is a specialised transport company that provides bulk ore haulage services to the mining sector. We are currently seeking an experienced boiler maker to join our Perth Workshop.

The position involves steel fabrication and body building involving: oxy/acetylene cutting/gouging, mig, arc, gas and tig welding. Experience in body building will be an advantage.

Successful applicants must have own tools of trade and a minimum of 2 years post trade experience. We are looking for someone who is reliable, motivated and able to work with minimal supervision.

**All applicants must pass full medical, drug screen and site entry requirements.**

### **Applications to:**
