

ENVIRONMENTAL STATEMENT

The Gulf Group is committed to ensuring that its operations have a minimal impact on the environment. In particular we will ensure the following is understood and adhered to by all its employees and contractors.

- All hydrocarbon waste will be disposed of according to legislative requirements and industry best practice.
- Establish and maintain an Environmental management system in accordance with AS/NZ ISO 14001
- Educate our workforce of key environmental issues, management controls and associated responsibilities.
- Comply with contract conditions, relevant legislation and other criteria to which the company subscribes.
- Regularly review business operations, identify and implement opportunities for improvement
- All new earthworks will be carried out in such a way as to minimise the impact on local environment and allow for rehabilitation back to natural state.
- All disposable material such as used steel, alloys, batteries will be recycled where possible or disposed of in accordance with legislative requirements and industry best practice.
- The Gulf Group is a signatory to the Federal Government Greenhouse Challenge and continues to be committed to this process.

The Gulf Group will continually strive to meet or exceed legislative requirements and be an industry leader in regard to protecting the environment from degradation in connection with its operations.
